CSA CANS and Service Planning Training

This webinar occurs several times. Please register for the date and time that works best for you.

[Register now!](#)

This training is designed for anyone who participates in the CSA service planning process; CSA Coordinators, FAPT members, and CSA Case Managers. Participation in the training will enhance CANS raters understanding of the basic logic of rating the CANS and increase confidence in their ability to appropriately assess CANS items. Participants will deepen their understanding of how CANS informs the service planning process, the use of needs and strengths to develop and monitor for progress in the service planning cycle, and the role of family and youth voice in the service planning process. Individual and caregiver reports in CANVaS will also be reviewed as a tool for monitoring progress.

After registering, you will receive a confirmation email containing information about joining the webinar.
